Dear dr. Sufi Desrini,

We are pleased to submit our manuscript entitled: “Achievement of Universal Health Coverage in Surakarta City: Policy Analysis” for consideration as a original article. This article is qualitative study, authors’ names: Rizky Amalia Puspitaningrum; Ari Probandari, dr, MPH, Ph.D; Dr. Eti Poncorini Pamungkasari, dr, M.Pd; Tonang Dwi Ardyanto, dr, Sp.PK, Ph.D; Ema Nur Fitriana. Affiliations: Master Program of Family Medicine, Department of Public Health Faculty of Medicine, and Department of Clinical Pathology Faculty of Medicine University of Sebelas Maret, Indonesia. This article was designed to explore deeply the involvement of actors, processes and contexts in influencing the achievement of Universal Health Coverage content in Surakarta City based on policy analysis triangle. We found that Achieving UHC in Surakarta City is the result of optimizing the four factors in the policy analysis triangle.
